

# *Romeo & Juliet*

## **Rap Style**

The scene opens on a big 'ole fight  
between Capulets and Montagues with all of their might.

Some swords were jabbed and names were called.  
So the Prince said, "Enough! Or I'm done with y'all."

Meanwhile, Romeo was so in love  
with Rosaline who must have been sent from above.

Still, his buddy told him, "Forget that chick!"  
"Let's crash Capulet's party and find a new pick."

So under disguise, the Montagues came  
to the masquerade which was not a bit lame.  
Across a crowded room did Romeo spy  
The lovely Juliet batting her eye.

So these doomed lovers became man and wife  
and figured they must be done with the strife.  
But danger came soon when Juliet's cous'  
killed Romeo's buddy as it was.

In a huge fury, Romeo burst  
And stabbed Tybalt dead making himself cursed.  
So, he ran away to hide from his dismay.  
Leaving Juliet to face her 2<sup>nd</sup> wedding day.

She ran to the Friar saying, "Please,  
help me be happy with my main squeeze."

So, he handed a potion to make her seem dead.  
When really she'd wake later with just a pain in her head

to find her dear Romeo with a map to escape.

No need for a wand or a cape.

But Romeo missed the message so  
He arrived in the tomb and exclaimed, "Wow!"

"Is she here dead? I must die, too!"  
So I'll poison myself and cry, "boo hoo!"

Juliet wakes with shock and dismay  
Saying to herself, "Oh, unhappy day!"

"No more poison? The dagger will do."  
So she stabbed herself with one last "I love you."

Both families found the sorry sight.  
And shook hands to end their fight.

THE END!
